**NATIONAL TELEVISION ACADEMY PRESENTS
25th ANNUAL NEWS AND DOCUMENTARY EMMY AWARDS**

Lifetime Achievement Award Presented to Retiring NBC Nightly News Anchor, Tom Brokaw
Ceremony to be Telecast on Discovery Times Channel, September 25, 2004 at 8pm (ET/PT)

New York, September 13, 2004 – The 25th Annual News and Documentary Emmy Awards were presented by the National Television Academy Monday, September 13, 2004. Hosted by Darrell Hammond of "Saturday Night Live," the evening featured an impressive line-up of prominent newsmakers and industry executives including Dan Rather, "CBS Evening News," CBS; Peter Jennings, "World News Tonight," ABC; Gwen Ifill, "Washington Week," PBS; Diane Sawyer, "Good Morning America," ABC; Wolf Blitzer, "Wolf Blitzer Reports," CNN; and Brian Williams, NBC News, who presented the awards to a distinguished group of broadcast journalists.

During the ceremony, former NBC News president Reuven Frank presented the Lifetime Achievement award to Tom Brokaw, retiring anchor of NBC Nightly News, after remarks by Bob Wright, vice chairman and executive officer, GE and chairman and CEO, NBC Universal. Brian Williams presided, as Brokaw was also saluted by Dan Rather, Peter Jennings, and Columbia University historian Alan Brinkley.

"On this, our 25th anniversary of the News and Documentary Emmys, the winners and nominees continue to expand on their commitment to produce journalism at its best," said Peter Price, President of the National Television Academy. "It's particularly fitting in this election year to honor Tom Brokaw as he has brought Americans insightful election coverage over his career and is a respected news anchor to millions of viewers, politicians, and world leaders."

In addition to the presentation of the Lifetime Achievement Award, the National Television Academy honored C-SPAN with special recognition for their "outstanding coverage of the American electoral process." C-SPAN has carried hundreds of hours of candidate appearances from the earliest primaries to the present. The award was accepted by Brian Lamb, Chairman and CEO of C-SPAN.

The News & Documentary Emmy Awards recognize outstanding achievement by individuals and programs broadcast throughout the 2003 calendar year. The NTA also presented an International Emmy Award for News Coverage, spotlighted a local News Emmy winner in the Spot News and Investigate Reporting categories, and featured a touching tribute to the international TV journalists who were killed in 2003-04.

The event was held at the Marriott Marquis Hotel in New York City. The Discovery Times Channel will telecast the ceremony on Saturday, September 25, 2004 at 8 PM (ET/PT).

The finalists were chosen by blue ribbon panels composed of broadcast industry professionals. Entries were reviewed from the 2003 calendar year.

The numerical breakdown, by broadcast and cable entities, as compiled by the independent accountancy firm of Lutz and Carr, LLP, follows:

PBS 8
ABC 5
HISTORY CHANNEL 5
CBS 4
CINEMAX 3
MSNBC 2
NBC 2

Battle Of The X-Planes

"Battle of the X-Planes" tells the story of the competition between Boeing and Lockheed to build the ultimate high-tech fighter, and to win the most lucrative contract in military history. The film tells the gripping saga of designers and pilots pushing the envelope against huge stakes, and of a landmark attempt by the Pentagon to change its way of doing business. "Battle of the X-Planes" exposes for the first time the entire process of how new weapons are designed and acquired.

The American Experience The Center of the World (New York, Episode 8)

PBS

The final chapter of Ric Burns' 14 ½-hour "New York: A Documentary Film", tells the epic story of the World Trade Center. The towers opened to almost universal derision in the early 1970's, but by the dawn of the 21st century they had become the undisputed icons of modern New York—and the new global economy. That iconic status made them the ultimate target, leading to their destruction in the hideous attack of September 11, 2001. Interviews with historians, critics and writers put the unimaginable catastrophe in a much-needed historical context.

This interview with Greg Thielman, charged with analyzing the Iraqi weapons threat for the State Department, reveals that Colin Powell had been warned that intelligence did not support the claim that Iraq had a reconstituted nuclear program—a key assertion in Powell's speech before the UN. Powell argued that aluminum tubes imported by Iraq were evidence that Iraq sought to build weapons. Interviews with other weapons experts corroborate Thielman's claims and poke further holes in Powell's case.

Tracy Droz Tragos' debut film is both a personal documentary and a film about the legacy of the Vietnam War. Tragos' father died in Vietnam when she was only three years old. The film documents her quest to learn who her father was, and to break through "the wall of pained silence" constructed, partly for Tracy's own protection, by her mother. The film illuminates one of the less well-known legacies of the Vietnam war: the 20,000 Americans who lost fathers there.

In the Name of God: Scenes from the Extreme

This film explores the cult of the shaheeds—martyrs for Allah—and the ethos of the suhada—martyrdom—cultivated in the Middle East over the past decade. Followers of Islam, a religion of compassion and mercy, have widely divergent views over the meaning of jihad and martyrdom. This documentary takes the viewer deep inside the world of extreme minority factions willing to throw life away in spectacles of mass destruction.

Amandla! A Revolution in Four-Part Harmony

"Amandla" examines the role song has played as a major source of inspiration and hope to black South Africans in the struggle against apartheid. Part of the challenge of making the film was that so much of the music was unrecorded, surviving only as an oral tradition. It was a challenge the filmmakers met with years of research, resulting in this extraordinary film.

Killer Cats of the Kalahari

This film tells the story of two of the planet's swiftest creatures—the Cheetah and the Springbok, hunter and hunted, locked in a race for survival. To capture this drama, filmmakers Carol and David Hughes utilized extremely long lenses and, at key moments, high speed photography. While filming in the desert is a technical challenge, the Hughes' years of experience observing these animals gave them the most important skill of all: knowing when to turn the camera on.

HISTORY CHANNEL

This film tells the story of the crew of the Enola Gay, ordinary American men burdened for almost 60 years with the responsibility of having physically dropped the bomb that instantly killed 100,000 people and obliterated Hiroshima from the earth. No archival footage exists of the events portrayed in the first-hand accounts of these men, so music and sound were critical to the film's effectiveness. In-flight sounds mingle with orchestral elements, and one particularly brave moment in the sound design is the dissonant tone that marks the preparation to drop the bomb.

Living with Bugs: Close Encounters

TLC

This quirky, comic, and sometimes harrowing film juxtaposes our human attitudes toward bugs with their insect's-eye view of our world. The visual style combines important scientific interviews and dramatic theatrical set-ups, which are in turn inter-cut with traditional verite filming of a victim who, in one instance, sleeps with 10,000 bed bugs. The rich quality of the images, combined with an altered perspective, pulls the viewer into the surreal bug world.
